DATE: July 21, 1992

SUBJECT: Comments Concerning the Draft Workplan for the Remedial Design for the Medley Farm Site by RTM

FROM: *for* Michelle Simon *Joan Colson*
Chemical Engineer, Regional Support Section
Technical Support Branch

TO: Ralph O. Howard
Region IV Project Manager - Medley Farm Site

THRU: Joan Colson *gc*
Leader, Engineering Technical Support Center
Technical Support Branch

I have reviewed the subject document as you requested in your June 23, 1992 memo. RTM's proposal appears to be thorough, reasonable and consistent with their March 6, 1992 technical memorandum as reviewed by RREL.

I concur with their recommendation allowing for time to obtain air emission and water discharge permits or an exception from them.

cc: Ed Bates
